🌐 Krishna Raj R

Education

B.E- Electronics and Communication Engineering	2021 – 2025
Sri Jayam Matric Higher Secondary School Percentage - 89.9%	2019 – 2020
Sri Lourdu Matha Matric higher Secondary School Percentage - 82%	2018 – 2019

Skills

Java Programming	HTML
CSS	JavaScript
ReactJs	NodeJs
ExpressJs	MongoDb

Professional Experience

Web Developer Intern, InternPe - Developed and maintained web applications, enhancing performance and user experience. - Collaborated with cross-functional teams to deliver projects efficiently and on time. - Provided innovative solutions that contributed to the company's growth and productivity.	05/2024 – 08/2024
Web Developer Intern, Corizo - Developed and maintained web applications using HTML, CSS, JavaScript, and modern frameworks. - Provided optimal solutions for various technical challenges, improving overall application performance and user experience.. - Improved application load times and performance, resulting in higher customer satisfaction. - Played a key role in increasing the company's growth by delivering innovative solutions and streamlining development processes.	02/2024 – 05/2024
Java Programming Intern, InternPe - Developed and enhanced Java applications, focusing on performance and functionality. - Resolved client issues with optimal solutions, improving application reliability and user satisfaction. - Gained hands-on experience with Java frameworks, contributing to code optimization and debugging. - Actively participated in code reviews, supporting process improvements and ensuring high-quality results.	06/2024 – 08/2024

Projects

Agro-Shopping, E-commerce Website

- Developed an Agro e-commerce website using the MERN stack, enhancing its functionality and user experience.
- Addressed and resolved various client issues, implementing solutions that improved site performance and usability.
- Designed a user-friendly interface, facilitating easy navigation and efficient product management.
- Integrated features to increase client product visibility and engagement.
- Continuously adapted the platform based on client feedback to optimize their experience and satisfaction.

Expense Tracker App, Expense Tracking and Budgeting Tool

- Developed an Expense Tracker App using the MERN stack to streamline expense management and budgeting.
- Resolved client issues by implementing custom solutions and optimizing app performance.
- Designed an intuitive interface for easy expense recording and insightful data visualization.
- Enhanced user experience with real-time tracking and secure data handling.
- Continuously improved the app based on client feedback to meet evolving needs and increase satisfaction.

Lumen AI Pro, Advanced Insights and Enhanced AI Performance

- Developed Lumen AI 2.0, an advanced artificial intelligence solution designed to elevate web development capabilities.
- Features intelligent data analysis, real-time insights, and predictive analytics to enhance decision-making.
- Provides seamless integration with web applications for improved functionality and user experience.
- Includes a user-friendly interface for intuitive interaction and efficient management.
- Utilizes machine learning algorithms to continuously learn and adapt, offering tailored solutions.
- Ensures robust performance and security, supporting scalability and reliability in web development projects.

Certificates

Udemy

- Mastering Data Structures and Algorithms Using C and C++

Nptel

- Introduction to Internet Of Things
- Soft Skill Development

HackerRank

- C Programming
- Java Programming
- Problem Solving

WorkShop

- Deep Learning:Unlocking the Full Potential - 2022(Kriya)
- UI/UX Design - 2023(Yugam'23)
- Blockchain - 2023(Yugam'23)

MongoDB

- MongoDB Basics
- MongoDB Document Model

SkillRack

- SQL
 - Python
-
